Introduction

Charging made easy

The Car Charger lets you charge up to two devices at the same time from the cigarette lighter socket of a car. You can use the supplied **USB Type-C** cable to charge a range of Xperia devices, Bluetooth headsets, tablets and more. you can also connect a USB cable to the USB ports on the charger to charge other compatible devices.

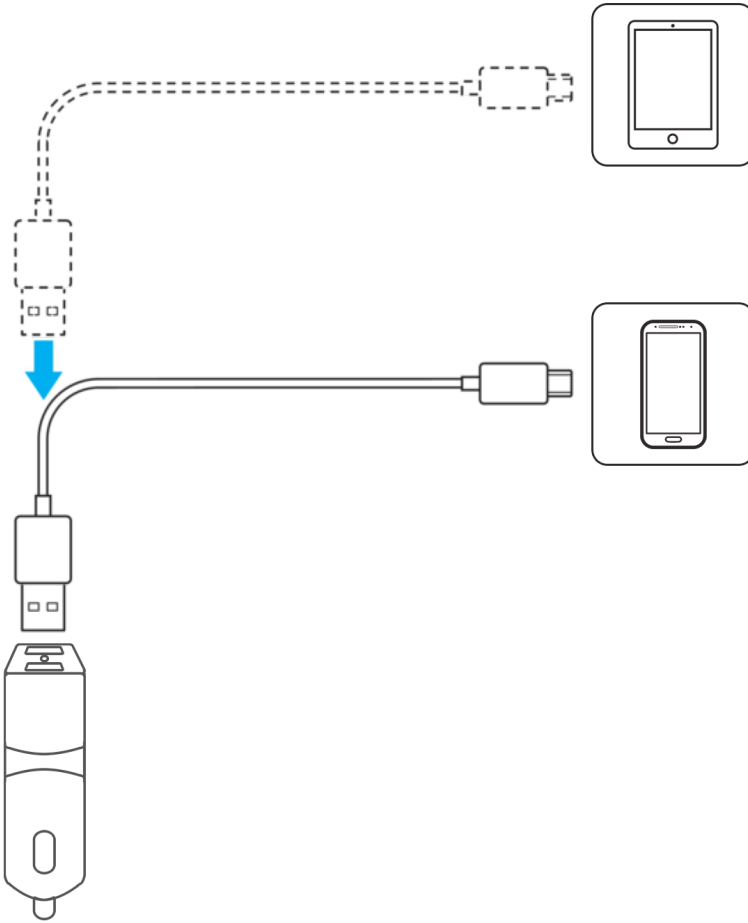

1	USB port
2	USB port
3	Notification light
4	Notification light
5	Power plug

Using the Car Charger

Charging your devices

To charge a device using the Car charger

- 1 Connect the USB Type-C connector to the device that you want to charge.
- 2 Connect the USB Type-A connector to the USB port of the Car Charger.
- 3 Connect the Car Charger power plug to the cigarette lighter socket of a car. The notification light illuminates and remains lit when power is available.
- 4 To charge a second device, connect a USB cable to the available USB port of the Car Charger. Connect the other end of the cable to the second device.

! For the Car Charger to function properly, it must be fully inserted into the cigarette lighter socket and in full contact with the anode and cathode connectors.

💡 In some cars, the ignition must be turned on before power becomes available to the cigarette lighter.
